

COMMERCIAL PROPERTIES

Green cans and grey cans on the avenue are for **PUBLIC USE ONLY**, not for your business trash. Please put your business or store garbage in your own receptacles for pick up at appropriate times. Putting your garbage in these cans is causing them to overflow. Let's keep our avenue clean.

All garbage, when placed at curb for collection, shall be placed in secured containers with lids. **All plastic bags should be containerized.**

The owner or person in charge shall place on the sidewalk or curb, at a time no earlier than 12:01 AM of day scheduled for collection, all containers for garbage and recyclables.

No containers should be at curb between the hours of 4:00 PM and 12:01 AM.

All collections made from any commercial or industrial property are to be made between 6:00 AM and 4:00 PM.

All dumpsters must be covered at all times. Lids must be closed with all bags and trash inside of container. Check dumpsters for discharge of any liquids. Dumpsters must be cleaned so as not to have any odors affecting the surrounding area.

Sidewalks in front of property must be shoveled up to the parking meters so that meters are accessible. Every store front must make path to street for residents and customers.

All properties must have an address number that is clearly visible on the front of the store (i.e. on the door, window, or mailbox if available).
